General Description
Provides intermediate level non-human primate animal care, and maintains routine records according to clearly defined standard operating procedures, federal guidelines, and regulations.

Examples of Duties
- Sanitizes the cage systems, animal rooms and support areas by using automated and manual equipment.
- Performs work under the indirect supervision of the Director.
- Feeds and waters the animals, and provides other routine animal husbandry activities.
- Assists in the training of other laboratory Animal Technicians.
- Handles and restrains animals according to instructions and protocol.
- Keeps routine records of environmental conditions, the animal inventory, and daily husbandry activities.
- Serves as one of the instructors for animal care workshops sponsored by the Department of Animal Resources.
- Observes and communicates the animal health conditions to the appropriate personnel.
- May be responsible for euthanasia, limited anesthesia, physical exams, and administering medication according to veterinary direction.
- Performs other related duties as assigned.

Knowledge, Skills and Abilities
- Knowledge of federal, state, and local regulations regarding animal care.
- Ability to work well with others.
- Ability to stand for extended periods.
- Ability to pay attention to detail and work in a fast paced environment.
- Ability to lift 50 lbs or more.
- Ability to frequently bend, crouch, and kneel.

Minimum GSU Hiring Standards
High school diploma or GED and two years of related experience. American Association for Laboratory Animal Science (AALAS) certification preferred.

The above is a general description of duties performed by employees holding this job title and does not represent a complete list of duties that may be assigned to an employee.
