General Description
Under general supervision, provides professional level technical expertise in planning, developing, testing, and documenting web-based computer application programs, and ensures that program modules conform to coding standards.

Examples of Duties
- Assists in business process analysis.
- Evaluates end-user requests for new or modified web-based computer programs.
- Provides support for large scale web-based relational database applications.
- Converts project specifications into logical web-based computer codes.
- Converts data into a variety of formats and media.
- Assists in preparing flow charts and diagrams.
- Writes reports.
- Trains University staff and new programmers.
- Provides professional level technical consultations to customers or clients.
- Assists in formulating plans to develop web-based programs.
- Tests, documents, and performs quality assurance on web-based programs.
- Performs other technical and professional level duties as assigned.

Knowledge, Skills and Abilities
- Knowledge of data processing principles, practices, and equipment.
- Knowledge of large web-based systems and event driven programming.
- Knowledge of Windows, voice response systems, and programming languages, such as COBOL, C, C++, Visual Basic, Pearle, Java, and relational databases, such as Oracle, middleware, HTML/XHTML, DHTML, CSS, RedDot CMS, Macromedia Flash, W3C standards, and 508 guidelines.
- Effective time management, analytical, and organizational skills.
- Effective customer service skills.
- Effective oral and verbal communication skills with external and internal customers.
- Ability to multi-task, train staff, and use independent judgment.

Minimum GSU Hiring Standards
Bachelor’s degree and two years of related experience; or a combination of education and related experience.
